VATICAN REPLY ON 'GUARDIANS'

ROME, March 12.—The birth of the Guardians of Liberty movement, in which General Nelson A. Miles and Thomas E. Watson are leaders, was no news to the State chancery of the Vatican. When called upon to speak concerning the Guardians of Liberty, Cardinal Merry Del Val declared the statement already issued by Cardinal Ruffini, which was passed on and authorized by him, to be correct and in line. He said the statement of Cardinal

is. This order the Guardians of Liberty is making more than an attempt to reject the authority of the Catholic Church. It was presumed to have cited from manuals of the Catholic Church. Surely no sensible man will be inclined to believe that the threat of excommunication and the threatened arguments of some people of Cardinal Ruffini were emphatic in determining the actions of the Guardians. The order was entirely a product of the mind of the editor of the Catholic church in the United States. The order is a threat toward American policies that not authorize the church to determine the actions of others. There is no reason why it should concern the church. The church is a non Catholic, is entitled with the political conditions created by the American Constitution. The church is not entitled to be at liberty to follow whichever party he chooses. The church is not entitled to the dictates of any church.

A. A. D. SASSOOM DEAD.

LONDON, March 16.—Waldorf Astor has taken another step in his manoeuvres for elevation to the peerage, which, entirely aside from the bearing it may have on his chances of obtaining a seat in the House of Lords, bids fair to cause something of a revolution in English journalism. This move has consequently aroused a double interest in London; members of the English aristocracy are wondering if it will place Mr. Astor on a footing with

This epoch-making move is the purchase of The Globe, London's oldest established evening paper, from Cyril Harmsworth, a nephew of the late Lord Northcliffe, and the placing of J. J. Garvin in charge of its editorial policy. This puts Mr Astor in control of no fewer than three London organs, which throughout their large and in some respects exclusive circulation, have exercised a considerable part in influencing English public opinion. The other two papers which Mr Astor owns are the Pall Mall Gazette and The Observer, a Sunday paper.

directing the employment of the Astor money, is J. I. Garvin, a journalist who has played a highly important role in English politics, and who, as the *Richelieu* or *Mazarin* of Mr. Astor, will probably raise his master to heights of power and influence.

BOWLING LEADERS
IN CITY LEAGUE
BATTLE TONIGHT

EDDIE PICKED TO
DEFEAT BROWN

By JACK CONWAY.

Young Eddie and Kenneth Brown are scheduled to meet in a six-round bout in Philadelphia tonight. The contest should be a shooting affair from beginning to end.

According to the articles of agreement, the men are to weigh in at 125 pounds a few hours before the fight. It is noted that Eddie, however, that the men will enter the ring at catchweight. Eddie may not make 125 pounds and will be able to add 10 or 15 pounds to his weight.

Eddie is confident that he will be able to outpoint Brown. Judging from past performances Eddie should win. He is a wonderfully clever boxer and at 125 pounds in a six-round bout. The recently took the measure of Mike Gibson, the St. Paul middleweight, in a six-round bout. Brown is a better puncher than Eddie, but he will meet it in a six-round bout. Eddie is a better puncher than Brown, but he will meet it in a six-round bout. Eddie is a better puncher than Brown, but he will meet it in a six-round bout.

Eddie Murphy in
'Condition for Bout'

Kidney Murphy of South Boston will enter Eddie Eddie of Philadelphia on Saturday night. Eddie is in good condition for the bout and believes that he can win. Murphy has agreed to make the weight. Murphy has agreed to make the weight. Murphy has agreed to make the weight.

Owen Moran Out
of Title Race

A draw was the best that Owen Moran got with Ted Moran in their fight on Saturday night. The Englishman was very aggressive and looked cleverly, but he did not win. The Englishman was very aggressive and looked cleverly, but he did not win.

Pilgrims Work Out for Gaffney
Big Cy Young Joins Squad at Augusta Camp
Club Owner and Sweeney Confer

By L. R. MURDOCH.

AUGUSTA, Ga., March 12.—James E. Gaffney, chief owner of the Pilgrims, accompanied by "Fudge" Cy Young, is due here today from Hot Springs. At Augusta Park is sufficiently dried out, he will see his team in a game of baseball. Otherwise he will have to look them over individually.

The most important matter Gaffney will have to settle is the Sweeney controversy. President Ward has declined to argue the salary question further with Sweeney, saying that the contract for \$2,000 he offered (Bill) is as far as he will go.

OWNER ANXIOUS TO LOOK OVER TEAM.

Gaffney is eager to look over the men whose appearance Ward has praised so highly. He is an eager baseball "fan" and he has great hopes on building up a baseball team in Boston. He watched the Dodgers close up at Hot Springs and believes that the Pilgrims will easily pass the Brooklyn aggregation if they turn out as well as they have been "cracked up."

PILGRIMS MAY PLAY COLLEGE BOYS.

A warm sun laid yesterday afternoon dried out the park a bit, but it was very high, so that it was not so hot. The temperature is so high now, though, that it is expected that the team will be able to play ball this afternoon. King will work out the pitchers who have a chance Monday and may try some new combinations on the field.

BOWLERS READY
IN TITLE MATCH

Only today remains and then begins the great Boston AMERICAN Bowling Championship Contest at the New Boston Alley, No. 107 Washington Street, Boston, which will continue through Thursday, Friday and Saturday night, to determine the title holder of New England in the championship sport.

That the 223 men eligible to the elimination round of tomorrow will all have fair treatment in the play of the game, it has been decided that three new sets of pins be placed on the alley during the session of forenoon, afternoon and night. There will be one set of pins at the start—10 o'clock. With the beginning of the second at 2:30 p. m. another set of new pins will be used, and the next new pins will be placed on the alley during the session of forenoon, afternoon and night.

MOST business men with a delivery or haulage problem are already sold on motor trucks. It is the problem of selection that they face. There is something more important than design or type or model. What of the stability—the resources, the responsibility of the maker? What of the assurance of permanency—of the insurance of service that comes of the purchase? Those are the points that should most influence purchasers.

The G M C is the mark, not of a car, but of a company. GMC trucks have behind them the manufacturing facilities, the engineering and operating experience, and the financial permanence of the General Motors Truck Company—your banker will tell you what that means.

G M C service is a distinct department of the organization under a General Service Manager. The Boston G M C Service Station is in charge of a Branch Service Manager, who is directly connected with the general Service Department. The policy of this Service Department will be to insure to the purchaser a prompt service at times of emergency—in parts, personal assistance and co-operation.

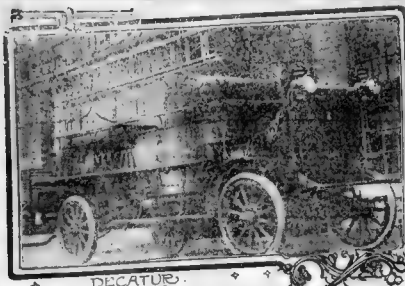

Where it is desired, a special service will be rendered, before a sale is made, in a thorough analysis and study of any delivery or hauling requirements.

If you would build up a standardized delivery system, and have each truck a harmonious unit in the whole, select trucks built by a manufacturer who will be able to fill your future as well as your present requirements. The G M C line includes gasoline and electric trucks in capacities of 1,000 pounds to 6 tons.

We will make an analysis of your delivery problem without charge or obligation.

One of the Studebaker Electrics in the American Express Company's Service

Studebaker Electric Trucks and Delivery Wagons

reflect in every detail of design and construction the sixty years' experience of the Studebaker Company in manufacturing road vehicles.

This experience assures sane, consistent design, no fads, no theories, but strong, sturdy vehicles which have proven, by years of hard service, they can do the work they were designed to do—and do it more economically than any other make.

This is indicated by the fact that many of the country's most prominent merchants, manufacturers and brewers, such as

- Gimbel Bros. of New York
- The Arlington Mill
- The Aolian Company
- Geo. Ehret Brewing Company
- Knox Hat Company
- Harmony Mill

continue to use and purchase Studebaker Electrics after they have had from three months' to two years' experience in their operation.

The Studebaker Electrics have proven to their satisfaction by actual use that they afford

Greater Economy Greater Efficiency and Greater Dependability

- than any other type or make of vehicle
- They have also proven by actual use
- that the Studebaker 1,000-lb. Electric does the work of from three to four horses at about the maintenance cost of one horse and wagon
- that the fire risk is much less than gasoline cars
- that the driver of a horse vehicle can easily learn to drive a Studebaker Electric in one day
- that the tire up-keep on Studebaker Electrics is reduced to a minimum
- in fact, that it costs less to deliver goods by Studebaker Electrics than in any other way

Owing to the extent of our line of trucks and delivery wagons, we were unable to procure sufficient space at the Automobile Show to properly display and do them justice; consequently our Truck Headquarters will be at our Retail Show Room, 889 Boylston Street.

Remember that we manufacture both Gasoline and Electric Delivery Wagons, and what we tell you in regard to the advantage of one type over another can be depended upon

The ninety-fifth is the state of the factory. The ninety-sixth is the state of the warehouse. The ninety-seventh is the state of the store. The ninety-eighth is the state of the bank. The ninety-ninth is the state of the post office. The hundredth is the state of the telegraph office.

TWO TYPES OF PACKARD TRUCK

Alvin T. Parker, vice president of the Packard Motor Car Company, has been elected president of the National Automobile Chamber of Commerce. He was elected at the annual convention of the organization, which was held in New York City. Parker is a well-known figure in the automobile industry and has been active in many of its organizations. He is also a member of the United States Senate and has been elected to that body by the voters of Michigan. Parker's election to the presidency of the National Automobile Chamber of Commerce is a significant honor and reflects the high regard in which he is held by his fellow industry leaders.

MOTOR TRUCKS IN BIG DEMAND

Motor trucks are in big demand in the United States. The demand is increasing rapidly and is expected to continue for some time. This is due to the fact that motor trucks are becoming more and more popular as a means of transportation. They are used for a wide variety of purposes, including the delivery of goods and the transport of passengers. The demand for motor trucks is also increasing due to the fact that they are becoming more and more efficient and reliable. This makes them a more attractive option for many businesses and individuals.

MANY TYPES OF VELIE TRUCKS

Velie trucks are in big demand in the United States. The demand is increasing rapidly and is expected to continue for some time. This is due to the fact that Velie trucks are becoming more and more popular as a means of transportation. They are used for a wide variety of purposes, including the delivery of goods and the transport of passengers. The demand for Velie trucks is also increasing due to the fact that they are becoming more and more efficient and reliable. This makes them a more attractive option for many businesses and individuals.

MANY STYLES IN SAMPSON WAGONS

Sampson wagons are in big demand in the United States. The demand is increasing rapidly and is expected to continue for some time. This is due to the fact that Sampson wagons are becoming more and more popular as a means of transportation. They are used for a wide variety of purposes, including the delivery of goods and the transport of passengers. The demand for Sampson wagons is also increasing due to the fact that they are becoming more and more efficient and reliable. This makes them a more attractive option for many businesses and individuals.

Trucks for Revere Company.

Revere Company is a leading manufacturer of trucks in the United States. They have a long history of producing high-quality trucks that are reliable and efficient. Their trucks are used for a wide variety of purposes, including the delivery of goods and the transport of passengers. Revere Company is committed to providing their customers with the best possible products and service.

FEDERAL RUGGED TREAD

A real non-skid tire

Service and durability are two points considered in the building of the FEDERAL RUGGED TREAD NON-SKID TIRE.

Its rugged build and exceptionally heavy tread make it unusually serviceable and lasting.

The heavy base knobs, built in parallel lines, firmly grip the road, giving full power traction under all conditions and saving excessive wear on the tires.

The formation of these knobs offers many skid-resisting angles the full width of tread at point of road contact, eliminating danger of side slip and ensuring perfect safety against skidding.

It is a real non-skid tire.

THE commercial motor car forms an important part of our 20th Century efficiency in business. The right truck is a positive economy, but the wrong one is a deadly expense. One saves, where the other wastes, your money.

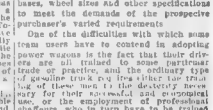

For a good many years the Garford Company have been solving difficult transportation problems among all classes of important American concerns. This vast and varied experience has built the Garford Truck—the most practical truck in America. To any concern, who has merchandise to be handled, we can give some valuable information, by demonstrating the most economical system of delivery operations. It will be worth your while to investigate.

Full line of Garford trucks at automobile show.

VEHICLES THAT MEET DEMANDS

to the charcoal truck line are vehicles which will meet all demands of merchants, whether be the deliverer of light packages or heavy loads. The line includes a tandem, four-wheel tractor, ranging from one and a half to five tons, are today being used by the largest merchants in the country. The one and a half-ton vehicle will carry the merchant lighter deliveries with a load capacity of 1,500 lbs. The two and the three and five-ton tractors will carry the heaviest loads through snow drifts, mud, up hills and down dale with a speed and ease that is unsurpassed.

The Willys-Garford Sales Company, John N. Willys' latest venture—maintains a fleet of 100 vehicles, which will perform from twice to four times a man's service and at a cost far less than will the drudgery unit of the same capacity. In fact, the Willys-Garford Sales Company at the show will reveal a complete line from which to choose, including a line of light trucks, delivery trucks, bodies, both friction disc and selective

This important consideration was taken into account by the Garford company when it entered the motor truck field. Garford trucks have been designed and built with such simplicity that a man with no previous knowledge of an intricate car could readily master not only the driving of the trucks, but can acquire a mechanical understanding with clarity.

for Taxicab Drivers

Copyright, 1912, by American-Journal Company

BUT THERE IS NO REASON WHY A STATE OR A CITY SHOULD TAKE A MAN'S MONEY FROM HIS POCKET FOR PERMITTING HIM TO EARN A LIVING.

It is to be hoped that magistrates inflicting fines will discriminate between the driver who pays the fine himself, because the taxicab company won't pay it, although it should do so in nine cases out of ten, and the driver whose rich employer should see to it that his car is kept in proper order.

For drivers that earn a small living the fines should be made small by just judges. And the law should compel the payment of these fines in any case by the companies unless it be absolutely proved that the offense is due to deliberate carelessness on the part of the driver.

But the payment of a license for the right to work should not be exacted from any body of men. And great leniency should be shown in the case of those workers for offences against mere city regulations not involving the public safety.

Why Is Mr. Everett?

Merely That We May Not Forget a Few Distressing Facts of Recent Moment

Merely That We May Not Forget a Few Distressing Facts of Recent Moment

In other words, it required the New York holocaust to bring Boston's building department to a full appreciation of the fact that this city was filled with fire-traps.

Does any one doubt that there are **MANY OTHER BUILDINGS** in Boston today that are improperly protected against fire?

These distressing things are recalled for the purpose of citing the fact that Mr. Everett IS STILL AT THE HEAD OF THE BUILDING DEPARTMENT.

**The Process of Flattening Their Pouches of Vanity That Women Have Inflated
Is the Most Important Step in Their Advancement**

By FRANCES I. GARSIDE

most important step in getting anywhere. The man with a pouch of conceit is pompous of tread, so cocksure of himself that he doesn't look at his feet, and he makes

capable than the one who has been put in your place."

Had they only not told him in the beginning that he was the greatest man in the world he would not have started out this

Exercise and recreation are an essential need to the mind and body. As a director of many boys' clubs, I can bespeak the best for such if once inaugurated. I will take boys from off the street corners and enthuse their minds with something better than loafing.
